To Whom It May Concern:

I am pleased to provide this letter of recommendation for Your Event Solutions (YES).

Cummings Electrical Inc. retained YES for an Employee Family Day Carnival that was held on November 17th. With six weeks to get event fully coordinated YES supported the event and exceeded every expectation resulting in this event which was to be a "one time event" into an annual company event.

The event took place outside of our facility in Fort Worth, and our grounds were transitioned into a Cummings Carnival fun zone for the day, inclusive of a petting zoo, pony rides, train rides, rock climbing, bouncy houses, mechanical bulls, carnival tents, food and games, clowns, and a kiddie's zone for more than 200 employees, plus spouses and children totaling over 1,000 guests.

During the planning phase of this event, YES listened carefully and understood the corporate goals of Cummings Electrical human resources department while ensuring the carnival -style fun was maintained.

During the event, the YES team worked together with our staff in a seamless effort to provide an excellent and well-run event. Kelley Parlier's personal attention and her team's professional and positive "can-do" attitude provided the perfect extension to the Cummings Electrical family.

On behalf of Cummings Electrical, Inc., I look forward to working with Kelley Parlier and YES on more special events and projects in the future.

Best Regards,

Scott Smith
Senior Project Manager
